Allaah said in the Qur'aan:

“Allaah has created every moving (living) creature from water. Of them there are some that creep on their bellies, some that walk on two legs, and some that walk on four. Allaah creates what He wills. Verily! Allaah is Able to do all things.”

[Qur'aan: Soorah an-Noor (24): Ayah 45]

From water, Allaah the All-Mighty, created all sorts of animals with different shapes, colours, and ways of moving around. He created those that walk on two legs (like humans, birds) and those that walk on four legs (like cattle) and those that crawl on their bellies (like snakes, worms).
